Business Description: Peakquest began in 2019 as a one product, problem solution company. We were two adventure buddies, hiking in multiple regions and states, trying to keep track of our progress in multiple hiking challenges. We were logging our hikes in journals and notebooks, but it was not efficient or fun, and so the peakquest hiking challenge scratch off was born!

Our first scratch off was for the ADK 46 High Peaks, and it was an instant success. By the end of our first year, we had designed the ADK Fire Tower scratch off and were working on the New Hampshire 48. We now have approx. 24 products which span the nation, including a scratch off for the Colorado 14ers, America's National Parks, and America's High Pointers, as well as ADK notecards and branded neck gaiters.

Web domains for peakquest: peakquest.org and peakquest.com

Peakquest also includes the peakquest owned and trademarked Tri-Lakes TRIFECTA hiking challenge, which operates under its own web domain: trilakestrifecta.com. The Tri-Lakes TRIFECTA hiking challenge now has 524 finishers, and generates revenue from both the scratch off card and the finishers who register for a patch.
